INTERNSHIP EXPERIENCE

City Agriculture Office – LGU Malaybalay, Bukidnon — **June 2026**

Information Technology Intern

- Developed and maintained the City Agriculture Procurement Monitoring System, improving procurement tracking, record organization, and administrative workflow efficiency.
- Managed and validated administrative records and document transactions using Microsoft Excel and the Document Tracking System (DTS), ensuring data accuracy, proper documentation, and timely processing.
- Provided technical support for hardware, software, printers, and network issues, while installing and configuring Windows, antivirus software, and office applications to maintain reliable workstation operations and minimize downtime.

WORK EXPERIENCE

Freelance Data Entry Assistant — **2025 - January 2026**

Private Client | On-site

- Encoded insurance sales data in Microsoft Excel, ensuring accurate and organized records.
- Maintained sales records, improving data accuracy and tracking.
- Completed assigned data entry tasks promptly, supporting timely business operations.
- Responded to data update requests efficiently, ensuring records remained current.

PROJECT EXPERIENCE

City Agriculture Admin Procurement Monitoring System

Developer

- Designed and developed an administrative procurement monitoring system, improving the tracking of procurement records.
- Managed database records and system updates, ensuring accurate and reliable information.
- Implemented reporting features, reducing manual monitoring and improving record accessibility.
- Resolved system issues and provided user support, enhancing system reliability and usability.

CMU Faculty Availability and Appointment System

Capstone Project

- Developed a cross-platform appointment management system using Flutter and Firebase, digitizing faculty scheduling and appointment requests.
- Implemented authentication and real-time database synchronization, improving data accessibility and system responsiveness.
- Integrated scheduling and database management features, enhancing appointment organization and user experience.
